CURRICULUM STRUCTURE

Recognized as one of China's top business schools, the Antai College of Economics & Management is experienced in designing curricula with rich academic components combined with real-world business immersion.

In addition to classroom teaching, the Antai Global Summer Program features company field trips, executive speaker sessions, and unique cultural and social events.

Sessions	Credit Hours	SJTU Credits
Academic Sessions	32	2
Corporate Seminar	4	
Company Visits	6	
Cultural Seminar & Activities	13	1
Chinese Language Course	20	
Total	75	3

ACADEMIC COMPONENT

- Inspirational academic sessions featuring highly qualified faculty and senior industry practitioners
- Challenging but rewarding team activities to hone your leadership skills and communication abilities
- A solid foundation in business and management thinking
- Integrated Chinese language training

CORPORATE EXPERIENCE

- Exclusive visits to leading companies in various industries and across types of companies (MNC, joint - venture, SOE).
- On-site talks by industry executives and leading experts in their fields.
- Corporate seminar and workshops led by industry experts.

CULTURAL AND SOCIAL ACTIVITIES

Social events featuring Chinese culture plus excursions to famous landmarks in one of the most exciting cities in the world.

* Note: A final exam on Chinese language is required, as is a final evaluation team project.

Three SJTU credits are equivalent to 6 to 8 ECTS credits. The student's home institution is the decision-maker on how many credits to transfer to the student. We provide a transcript to either the home institution or the participant.

CLASS SCHEDULE

Two sessions opening in 2019.

🕒 **May session:**
May 19-June 7, 2019

🕒 **July session:**
July 7-26, 2019

* Students should choose one from the above two sessions to participate in.

2nd round	April 10, 2019 (Deadline for May Session)
3rd round (only for July Session)	June 10, 2019 (Deadline for July Session)

TESTIMONIALS

LISA ALDERSON [AUSTRALIA]

"I was really impressed with the variety of lectures. We had a lot of lectures on different topics, from different nationalities of lecturers. The lectures were tied in really well with the company visits. The whole program was put together really well."

MOSHE LINFIELD [USA]

"It is a very well-rounded program where we are able to be with the masters-level students for a good amount of time, which greatly helped us. The questions they were able to ask based on their experience were enlightening. At the same time, we have our own undergraduate program, which was more tailored to our needs. I think it was a very good combination."

MARINA BRAGA [BRAZIL]

"Everything exceeded my expectation --- the lectures, the professors, people in the program, and China itself. I was not expecting such high-caliber, such important lecturers."

LISELOTTE VAN COILLIE [BELGIUM]

"The balance between different activities we did in the program – cultural activities, company visits – is what makes it interesting, not one specific thing but the fact that we do all these things together gives it added-value. The program selected students from all over the world, so I make friends from all over the world and got to know their cultures."

CARL-FREDRIK ERIKSSON [SWEDEN]

"I studied Asian studies in the UK. Before I came, I knew a lot about Japanese culture and Korean culture, but I felt in order to broaden my horizons and grasp East Asia societies, I really had to come to China and learn about Chinese culture, and see what China is like and how it's different from its neighbors."

DIANA BEAUTY [INDONESIA]

"The program is really exciting because you learn a lot about China. I think the most interesting part is when you learn about dumplings and pottery because it's really Chinese."
